A good number of Frank people attended the Masonic dance in Coleman on Friday night. Among them were Mr. and Mrs. Dromm, Mr. and Mrs. H. C. Moore, Miss Berry and Miss McCarty.

The boys of Frank have arranged for a basket social to be given in the school hall on February 22nd. All the ladies are invited to come and bring baskets. An interesting programme is being arranged.

A good many from here went to Prosser Creek on Monday to see the hockey game. Amongst them were P. Cleasburn, H. C. Moore, S. Ross, A. Young, Dr. Bull of Passburg and Mr. Grulickbank of Hillcrest.

A dance was given in the Bonamex hall on Saturday night, the proceeds being the wedding of Mr. and Mrs. Futscher. A large number of friends gathered to drink to the happiness of the pair and dancing lasted until 12 o'clock.

The ladies' hockey team were on the ice on Monday night practicing. They are acquiring great speed. Mr. Ashman, who happened to be on the ice on Monday night, is complaining today of a stiff neck as the result of being run into. But he doesn't complain as he had no business on the ice.

You are probably aware that pneumonia always results from cold, but you never heard of a cold resulting in pneumonia when Chamberlain's Cough Remedy was used. Why take the risk when this remedy may be had for a trifle. For sale by all druggists.

The boy scouts have been doing their share of hockey. On Wednesday last the Coleman boys came down to play off the "rubes". The score was 4-2 in favor of Frank. Both teams played a good game. On Saturday the Blairmore boys came down and got beaten by a team of boys from here, the score being 6-3.

How to cure a cold is a question in which many are interested just now. Chamberlain's Cough Remedy has won its great reputation and immense sale by its remarkable cure for colds. It can always be depended upon for sale by all druggists.

The ladies of Coleman defeated the ladies of Blairmore in an interesting and highly amusing hockey game here on Monday evening last, the score being 6-0. It was the first game of the kind ever played here and nearly two hundred spectators were present.

Remember the date of S. L. Tache's, eyeglass specialist, visit to H. A. Parke's drug store, Coleman, on Wednesday and Thursday, Feb. 21st and 22nd, and if there is anything wrong with your eyesight don't fail to consult him. All work absolutely guaranteed.

Jeanne Russell Booked

Local theatre goers will find much delight in the announcement that the popular and talented Jeanne Russell Company, headed by Miss Jeanne Russell herself and Ray F. Brandon, are booked at The Grand Union hotel, for an engagement of three nights starting Monday, February 19, appearing in a repertoire of the very best and latest standard plays.

It has been several seasons since Miss Russell's company favored us with a visit, but she is perhaps better known here than any other actress who visits the province and she has a host of friends, who are former patrons who will be more than glad to welcome her back. Since their last tour of the province the company have been playing stock engagements in the large cities on the coast, the last one being in Vancouver B. C. where they were installed for twelve weeks last summer in the Vancouver opera house, and during their engagement here will present the plays that were the most successful there.

The opening attraction will be "The American Girl", a comedy drama of two continents by Edw. Doubleday and one of the greatest laugh producers ever carried by a stock company. On Tuesday night the offering will be a dramatization of "Nora" Wagner's famous novel "David Harum" and on Wednesday night the play will be "Emmeline" or "Two Married Men", a comedy that was written especially for Miss Russell and which by the way is one of the most classic comedies on the boards. The company supporting Miss Russell is one of the best she has ever had chosen especially for their fitness to the parts, and each play is correctly mounted with an abundance of special scenery.

The company numbers eighteen people, none of whom have held engagements on the Orpheum Vaudeville circuit, and will be seen between the acts in some up to date specialties. The prices for the engagement have been made very reasonable, 75 and 50 cents, which with the reputation of

DON'T LET THAT COUGH ROB YOU OF SLEEP

You probably know all too well how it goes. Just as you go off to bed, the tickling starts in your throat, and you're awake, sitting up, coughing, and then, after a while, you're fast asleep, coughing your head off.

A few nights of that and you're so worn out and weakened that the cough takes a night or two of your sleep. But why enter into it? No-Dry-Cough Syrup of Linseed, Licorice and Chloroform will soothe that irritating tickle, soothe the inflamed membrane, and it not only stops the cough quickly, allowing you to get some refreshing sleep, but it goes to the root of the trouble and drives out the cold completely. Children willingly take No-Dry-Cough Syrup of Linseed, Licorice and Chloroform, because it tastes so good. Your Druggist has it or can quickly get it for you in 5c. and 25c. bottles. The Stomach Needs Help

The Liver, Kidneys and Bowels Must Be Kept Active to Ensure Health.

DR. CHASE'S KIDNEY & LIVER PILLS

Not one person in a hundred gets along all this time of year without getting something to relieve the action of the liver, kidneys and bowels.

Too much eating of heavy fatty foods, too little outdoor exercise, this is the explanation. The liver and kidneys are overworked in their efforts to remove the poisonous waste matter from the system. They fail and become torpid and clogged. The bowels become constipated and a general derangement follows.

There is one medicine which will overcome this condition more certainly and more quickly than any other, and this is Dr. Chase's Kidney-Liver Pills.

This medicine gets the bowels in action at once and by awakening the liver and kidneys causes the thorough cleansing of the filtering and excretory systems.

With the poisonous obstructions removed, the digestive system resumes its healthful condition, appetite improves, pain and irritation disappear as well as irritability of disposition.

You cannot imagine a more satisfactory treatment for biliousness, constipation, headache and kidney disease than Dr. Chase's Kidney-Liver Pills. One pill a dose, 25 cents a box, at all druggists or Edinboro, Bates & Co., Toronto.

WINNIPEG DUMPLING FESTIVAL

Forbes Robertson Dumpling Attraction at the Walker Theatre, Winnipeg

Prospective visitors to Winnipeg are to get a great annual dumpling festival will be glad to know that a most notable attraction has been secured by a prize-giving Walker for that week. This attraction is more than its name implies.

Forbes Robertson, who has held the prize in England and America for two or three seasons, is a beautiful play, of such the same moral tone, as the Dawn of a New Year, in which his brilliant wife, Gladys Robertson, scored so heavily in Winnipeg last season.

Forbes Robertson stands pre-eminent among both English and American actors in his line today. He is a man of great culture and sophisticated moral character, and his histrionic ability is that of a genius.

He will bring to Winnipeg exactly the same fine company which supported him in New York and elsewhere and all the scenic equipment used in the New York equipment.

Other excellent attractions will precede and follow Mr. Robertson at the Walker, so there will be no dearth of high-class theatrical entertainment for those who enjoy that form of amusement.

The Spectre of the Microbe. It has been discovered by various modern means that little are discovered carriers of disease that "even the breathing of a cat in a room can throw out infection, and that as for the common house fly, it is so frequently attracted from vomit, called putrid, which may be traced to the fly's unsuspicious fly to vomit."

This (says the Academy), is really the most important thing to know, and too complicated for the average unlearned human being. The scientific men, the scientific animals, the blustering bullies, like in your books, grown on your carpets, and still swimming races in the water are arising next themselves by air and in the train, invade the very clothes we wear, and penetrate to the innermost portion of our anatomy by means of the atmosphere, which we shall very soon be convinced will be able to breathe.

It has been discovered by various modern means that little are discovered carriers of disease that "even the breathing of a cat in a room can throw out infection, and that as for the common house fly, it is so frequently attracted from vomit, called putrid, which may be traced to the fly's unsuspicious fly to vomit."

This (says the Academy), is really the most important thing to know, and too complicated for the average unlearned human being. The scientific men, the scientific animals, the blustering bullies, like in your books, grown on your carpets, and still swimming races in the water are arising next themselves by air and in the train, invade the very clothes we wear, and penetrate to the innermost portion of our anatomy by means of the atmosphere, which we shall very soon be convinced will be able to breathe.

To Lord Mercehurn. In Germany where merchandise pipes are more largely used than anywhere else, the following maxim is in use for speaking them for coloring. The boy is soaked first in talcum and then in water. This is absorbed and a thin coating of wax is laid on the surface of the pipe and it is made to take a high polish. Under the wax is retained the pipe and the wax is laid on the box as possible, driving the wax off and leaving the box dry and raw.

Read it Differently. A man was charged with stealing a sheep belonging to Sir Garret Fitz-Maurice.

"You found the poor creature strayed on the road, my lord, and was just driving it back to its owner."

"You could not have been ignorant that the sheep belonged to your lordship, Sir Garret Fitz-Maurice, as his brand 'G.F.M.' was on the animal."

"The letters meant 'Good Fat Mutton'!"

Business. A train to Arizona was boarded by robbers, who went through the pockets of the luckless passengers. One of them happened to be a friend of the man from New York, who when he had been asked to place his money in the pocket of the man, he said: "You can read!" asked his lordship.

"A little more love."

"What do you mean by that?" asked the robber as he toyed with his revolver.

"You mean that I never refuse my best friend a discount on an effective cash transaction like this!"

A public-house in a certain district displays in one of its windows this notice:

"Football results received here."

into this have one Saturday evening a man entered supporting a young man, whose leg he had broken in a football match, and he had been carried in some degree of excitement.

"You're the 'bait' results here, I see," said the former.

"Well, here's one from the football match; 'ye might keep him till he comes to himself!"

Editorial Notes

Foodish spending is the father of poverty. If a business is not worth advertising it is not worth patronizing. Don't spend your money foolishly but buy from those who are not ashamed to advertise their goods in their home paper.

We notice that now just as the ladies of The Pass town are taking a keen interest in hockey, the St. John's Ambulance association are increasing their number of branches in the same territory. We hope that our humane brothers will be able to cope with the situation.

We have a question to ask "A Citizen," who thinks that cinders are not suitable to use in making streets and who is quite right, with reference to this matter, appears elsewhere in this issue. What we would like to know is, would it not be much better to walk on cinders here than to walk on them hereafter?

The Baptist church held their convention in Vancouver last week and during that time they were one of the most interesting kind were pulled off and considerable booty secured in this city. We have no desire to accuse those sky pilots of using such drastic and unauthoritative means to secure money or even being necessary thereto, but, honestly, wasn't it a strange coincidence?

Our teachers are working hard and successfully but they never know whether their work is appreciated or not unless they have some indication of the effect from the patrons of the school. Parents should make it a point to visit at least the rooms in which they have children. Kindly visits from parents have an inspiring influence both for teacher and pupils and if the visits be accompanied by an occasional word of encouragement so much the better.

On Sunday morning last while Divine service was being held in one of the local church buildings, the singers were trying to make their voices reach the heavenly choir, the loud noise of a hammer was incessantly heard which too plainly told that some one was violating the fourth commandment. At the evening service, in the same church, a hymn containing the following appropriate words was earnestly rendered by the worshippers, particularly so by those who happened to be in the same sanctuary in the morning:

"If you cannot cross the ocean And the heathen lands explore You can find the heathen nearer You can help them at your door."

We were told that the result will be closely watched. In case we may be called a hypocrite for attending church, we might state that our authority

for these statements is a person of unimpeachable character.

How does the country editor manage to make his newspaper in those, is a question which has been often asked and never answered in but one way. By work. He is his own editor and reporter and frequently business manager, foreman, printing clerk and compositor. With an assistant or two he turns out every week a paper which, while perhaps not brilliant, still contains substantially all the general news of the week, and all of the news of the locality. The paper has an influence far greater in proportion to its circulation than any of the great metropolitan dailies, and it has done more to educate and reform the people than churches or the public schools. The overworked country editor is not properly appreciated, for he does more for the community in which he lives than any other individual. He must have a firm belief in a reward, however far or his nerve would desert him early in his career.

Referendum and Recall
Those who attended the young People's Guild in the Mission hall, on Monday evening last, greatly enjoyed the time spent there. Mr. H. E. Lynn gave an interesting talk on "Referendum and Recall." The speaker showed that the carrying out of referendum and recall in Switzerland, several states in the union and in other places was being done much to the satisfaction of a large majority of the people. He believed that one such measure would be enforced in this province and in other provinces in a dominion. Several questions were put to the speaker who answered them in a neat and satisfactory manner. Besides the address by Mr. Lynn, a letter was beautifully rendered and a reading by the president brought out of the most interesting meeting of the kind to a close. A local reception will be held on Monday evening next and will commence at 8:30 o'clock. Come early and enjoy yourself.

Wants Macadamized Streets
(To the Editor)
Dear Sir:—I notice in your last issue an editorial regarding cinders being good for making streets and you advocate the use of them for such purpose. Well, Mr. Editor, would it not be much better to have our streets macadamized? I think that Blairmore should make a step in that direction, and instead of having cinder streets to walk or drive over, we might have, what I consider, more up-to-date thoroughfares. Many western towns have such. Why not Blairmore? Thinking you for space, I remain, Yours truly,
A CITIZEN.
Blairmore, Feb. 6th, 1912.

In our opinion cinders are much better to use in streets or roads than the broken stones as invented by Sir John MacAdam. If macadamized streets come in contact with water they will, after short use, have a muddy, slippery and altogether a very unpleasant surface. Whereas in the case of cinders all kinds are very readily imbedded, and a good dry and pleasant surface is the result.—Editor.

Frank and Pincher

At a fast hockey game played at Frank on Wednesday night, between the home and Pincher Creek teams, the score resulted in 4-1. It was a splendid exhibition of the great winter game, and the home team did remarkably well, considering the class of players they were up against.

Experts may find it is nothing in the alleged find of gold at Minnetonka, Minn.

The centennial of Christina Dickson, the great novelist, took place on Wednesday last.

How Blairmore Won

One of the fastest games of hockey ever witnessed in the Terr. took place at Blairmore on Wednesday night, between the Frank and the home teams. The game resulted in a 4-1 score, at the frequent goal checks from the Blairmore side, many hockey experts, Blairmore won by a score of 4-1. Frank was picked from the 11-11. McQueen scored four goals. Turner scored the rubber, and the latter scored for Frank. The game was a very fast one, and the Blairmore team was very well coached.

Lake City

Is the name of the Western Terminal Point of the proposed
Crow's Nest Pass Electric Railway and is already typified
by the Pass line of the C.P.R., while the G.N.R. has al-
ready approached to within a few miles and must
eventually pass through this admirably located town.

Lake City

In located by the shore of Crow's Nest Lake, only a few
miles east of the provincial boundary between Alberta and
British Columbia, and just north of the International line.

In reality, it is at the top of Canada where the majestic
Rockies tower in serene magnificence over great chasms and
numerous gorges, reflecting their presence on the waters of
this beautiful lake. Here also are afforded the very best
looks for the daring mountain climber and for hunsman
who desires to outwit the quiet ways of the Rocky Mountain
goat, sheep, deer or elk, which are the monarchy thereon.

In close proximity are numerous timber, mineral and fuel
resources, development of which is now in its initial stages.
These resources include gold, quartz, coal, iron and pulp wood.

Crow's Nest Lake has long been looked upon with promise
as an admirable location for health and tourist resorts, and
but now this promise is being realized. Plans for hotels, etc.
are being arranged, as well as boat houses, and the most
modern pleasure yachts will soon glide over the surface of
this beautiful lake.

But a few weeks ago lots were placed on the market, and
the agents have had their hands full attending to purchasers.
Prices run from \$150 up. For further particulars
